**Dynamic Broadband, Inc. and Rapid Web, L.L.P. Announce Merger**

*Combined entity will provide internet services to over 50 communities across Iowa/Minnesota. Fourth merger or acquisition for Dynamic Broadband in the last 24 months.*

Cedar Rapids, Iowa, January 25, 2007. Dynamic Broadband, Inc. a carrier class provider of wire-line and fixed wireless broadband services for critical data and Internet applications and Rapid Web, L.L.P. a wireless Internet service provider based in Rochester, MN. announced today that they will be merging.

"The Rochester market is a very exciting market for us to be involved with. We have been working with Rapid Web on various projects over the last several years so we are very close to their management team and customers." commented Mike Brown, President and CEO of Dynamic Broadband, Inc. "Working together as one entity will allow us to make additional investments in the Rochester area to better serve existing customers and extend the reach of our network. This equates to greater value for existing and new clients alike."

Chris Mullen, President and founder of Rapid Web L.L.P., echoed Mr. Brown's sentiments. "Teaming up with Dynamic Broadband strengthens our commitment to Rochester and the surrounding markets. I am pleased about the transaction, the team at Dynamic Broadband and our plans for this area."
