FOR IMMEDIATE RELEASE:

Dynamic Broadband, Inc. and X-Wires Communications, L.L.C. Announce Merger

Combined entity will provide internet services to over 40 communities across Iowa.

Cedar Rapids, Iowa, April 24, 2007. Dynamic Broadband, Inc. a carrier class provider of fixed wireless broadband services for critical data and Internet applications and X-Wires Communications, L.L.C. a wireless and wire-line broadband Internet service provider announced today that they will be merging.

"We are excited to begin working with the management team at X-Wires." commented Mike Brown, President and CEO of Dynamic Broadband, Inc. "Our combined efforts will allow us to provide increased broadband opportunities for businesses and residences across the state. This means only good things for existing and new clients alike."

Benjamin Anderson, President and founder of X-Wires Communications, echoed Mr. Brown's sentiments. "Each team's shared focus and commitment to service will be great for our clients. I couldn't have asked for a better group of people to begin working with. With so many synergies, we are aligning ourselves to do some great things throughout Iowa."
