#### FOR IMMEDIATE RELEASE:

DYNAMIC BROADBAND MAINTAINS WIRELESS INTERNET SERVICES TO CLIENTS THROUGHOUT CEDAR RAPIDS, WATERLOO AND IOWA CITY AREAS DESPITE MAJOR FLOODS

Dynamic Broadband is working around the clock to maintain wireless Internet services to its clients in Cedar Rapids, Waterloo, Iowa City and areas affected by major flooding.

Through the use of generators at its downtown Cedar Rapids Network Operations Center, Dynamic Broadband's Internet services remain in-tact. Mark Lundy, the company's Chief Technical Officer, commented, "I'm proud of our team. We were able to maintain service to our wireless Internet customers when many other regional Internet providers had to shut down. In the last 72 hours, we have been able to help other businesses by engineering them emergency Internet circuits."

URRelay, Inc., a Cedar Rapids company which permits persons with a hearing or speech disability to use the telephone system via a text telephone (TTY) or other device, was one company affected by the flooding. "Once again DYBB has shown that they are the Internet provider with whom you can trust to be there when no one else can or will." Said Bill McClelland of URRelay, Inc. "When our communications business had to evacuate, DYBB was not only there with Internet, but worked with one of their other customers to provide us with a place to move. Our Director of Network Engineering sums it best "At times I have felt like I was their only customer."

Dynamic Broadband, continues to assist customers displaced by the floods. If You or Your business are in need of Internet services, please contact Dynamic Broadband at 1.800.WOW.DYBB (1.800.969.3922).
